

EFFECTIVE | COMMAND

CANADA

Effective Command is an incident command Professional Development program suitable for all officer ranks. It provides an immersive training environment enabling the dynamic and realistic development of Fire Officers, coupled with a behavioural marking assessment tool for recording competence and generating organizational KPI data.

Training resources

- Extensive scenario library suitable for centralized classroom-based training or individual self-led training, are currently there are over 70 scenarios with 16 added to the library every year. The scenarios are localized within Canada and include lesson plans and worksheets.

Assessment Resources – For use by organizations with certified Effective Command Instructors

- Dedicated assessment scenario library comprising incident graphics, scripts, supporting images.
- Behavioural Marking Assessment Framework – covering technical & non-technical competencies.
- Each assessment generates a PDF report for the learner and populates an organizational database with specific competence data.
- Assessment tool is cross-mapped to NFPA 1021 (I-IV), 1521, 1026, 1041 and endorsed by OAFC.
- Suitable for use during development & consolidation incident command training for all personnel.
