

Instructor Development Workshop

This workshop is delivered by Ontario Fire College staff members to develop your skills and knowledge that will boost the department's planning, implementation, and evaluation of training and educational programs. The instructors will provide you with guidance and support on delivering in-house training courses such as NFPA 1002 Apparatus Equipment with a Fire Pump (Chapter 5), NFPA 1072 Hazardous Materials, and the NFPA 1001 Firefighter JPRs that achieve Exterior Fire Attacks.
