There is no objection to the regulation; however there is concern over the referencing appendix. NFPA 1710, although familiar with municipal fire services, has not been widely adopted or used in Ontario. As the appendix is utilizing 1710 to define response time, the Ontario Fire Marshal has issued Public Fire Safety Guideline 04-08-12 for use by Ontario Fire Departments. The guideline references a 10 minute benchmark response time and defines what response time will represent. We strongly urge that the Ontario Building Code reference a recognized Ontario guideline, PFSG 04-08-12 versus referencing NFPA 1710.
