The OAFIC strongly opposes the elimination of protected egress. The proponent is concerned as to the cost in public funded care facilities. It is these care facilities that tend to house our most vulnerable citizens. It should therefore require increased protection throughout the entire structure. As it takes longer to move our vulnerable citizens out of a building, increased protection for the safety of the occupants and the workers assisting with evacuation is critical.

Personal information provided in response to Building Code Consultation is collected under the authority of subsection 38(2) of the Freedom of Information and Protection of Privacy Act, R.S.O. 1990, F.31 for consultative purposes and for contacting you should we need to clarify your response to this consultation.
